PRESS RELEASE
FOR IMMEDIATE RELEASE

THE WEDGE™ —Brings comfort and posture support to any chair!

Maintaining proper posture is a key factor for musicians in obtaining better breath support and an effective playing position. **THE WEDGE™** from Neotech is the easy and portable way to encourage good posture during practice or while performing.

THE WEDGE™ consists of a multi-chamber design, to prevent unwanted side-to-side movement. Its sloping surface puts the upper body into proper alignment making playing for extended periods of rehearsal or performance more comfortable. The velour-like surface makes it comfortable for the musician while keeping it in place on a chair.

Student musicians using **THE WEDGE™** will benefit from getting an early start on developing good posture habits. Make slouching and bad posture a thing of the past—get **THE WEDGE™**!

When not in use **THE WEDGE™** can be deflated and rolled up to store in your instrument case's accessory compartment or gig bag. What could be easier or more convenient?
