PRESS RELEASE  
FOR IMMEDIATE RELEASE

### ***SUPER HARNESS STRAP™***

*Finally, a harness that's not only functional but extremely comfortable!*

The revolutionary **SUPER HARNESS STRAP™** from NEOTECH carries the burden of a heavy instrument so that the musician is free to concentrate on the music and playing technique. This easy-to-use harness provides freedom of movement and the same weight reduction system found in other NEOTECH straps. The quick release buckles make it a snap to put on and the adjustment system makes it easy to customize the harness to your needs. As it freely glides through the hardware located in the back, it increases your mobility without sacrificing comfort. The neck/shoulder pad always stays in place so you are free to move as much as you'd like. No longer do musicians have to be restricted by confining harness designs. The NEOTECH **SUPER HARNESS STRAP™** is ideal for musicians in marching bands as well as individuals with back and neck problems. **SUPER HARNESS STRAP™** makes your instrument feel up to 50% lighter and 100% more comfortable. It's ideal for alto and bari saxophones. It's available in black in a choice of two sizes (regular and X-Long) using our swivel hook or our unique non-marring nylon loop connector system. Made 100% in the U.S.A.
